KARAT FAST TRACK

Reach Your Goals Faster

KARAT FAST TRACK (KFT)

- A motivating opportunity to reach the next dual level without having to buy a physical package.
 - Creates duplication within your team so everyone wins.
 - The right tool for everybody who wants fast efforts in the business.
-

THE CHALLENGE

- The KARAT FAST TRACK starts on the day an affiliate purchases their first Business Package (BP) or Multi-Gold-Package (MGP).
 - To qualify for a free **upgrade** to the next status rank, an affiliate must sell 5 MGPs (or BPs) at their level or higher.
 - The KFT phase lasts for 5 weeks (Example: from January, 1st 00:00:00 to February, 5th 23:59:59).
 - So affiliates have 5 weeks time to fulfill the requirements. If the requirements are fulfilled before the 5 weeks are over, the KFT ends at this date and affiliate gets the higher status.
 - If goal is not reached, the affiliate has the opportunity to restart KFT under same conditions by acquiring the next package with higher status.

Important Information

- Multi-Gold-Package 1 is not qualified for KFT through selling packages on same level or higher as it has no Dual Status.
- Free upgrades do not generate commissions or units.
- After achievement, the status upgrade will be automatically transferred to your account.

Very Important Information to qualify for KFT

- A new affiliate, who hasn't bought any package can achieve a status through selling three "3D Metal Karatbars" during the first six weeks after registration.
 - Then the affiliate has a status and can participate on the KFT.
 - So at least, without buying any package, we offer the opportunity to get the Gold status.
