Gold has a history of over 5,000 years. Since ancient times, gold was an important raw material. For the last 2,800 years, gold has been a recurring base of currency and trade.

In 1971 Richard Nixon cancelled the direct convertibility of the United States dollar to gold. Gold became more valuable, however, now currencies lose more and more of their value every year.

http://www.federalreservehistory.org/Events/DetailView/33
Why Gold?

1. In 2008, the crisis began with the real estate bubble, meaning the banks had to write off their loans. New money had to be printed.

2. The global crisis in Europe and the United States can lead to global inflation causing a rapid decrease in currency value.

3. In the EU, problems continue to grow. First Greece, then Spain and after that Portugal needs bailouts. How long can this continue?

4. For almost 100 years the dollar was backed by gold. Nowadays you can see “Federal Reserve Note” written on the dollar, which means it is backed by debt. [http://www.federalreserve.gov/faqs/currency_15197.htm](http://www.federalreserve.gov/faqs/currency_15197.htm)

Why do so many people live in poverty while others live in prosperity?

Is the traditional system still suitable?
What do you think? Will money increase in value? Or will it depreciate?
This is what the current system looks like

This is what the new system could look like

Karatbars – Pay with gold conveniently.
Function available in 2016.
Due to the expense, most people find it difficult to acquire large gold bars or do not know how to contact a gold bullion broker. This is where Karatbars International steps in to provide high quality gold bullion at a price point everyone can afford.
The Idea:

Purchasing gold in small units with immediate availability diversifies your finances.

Karatbars gold products are an alternative means of diversifying your family’s assets. Less than 1% of the world’s population owns gold. This is a massive market!
